4WheelDrive
My First Ride On

Minjal

USER MANUAL

To be assembled and used under Adult Supervision.

Cleaning Instructions:

Cleaning is very important for the swift ride of your child.

- **4WD** wheels can attract human hairs and thread lying on the floor surface rolled around the axle this may obstruct swift spinning of wheel(s). (Fig-1)

- Pull out hairs or thread gently by slowly rolling the wheel while pulling the object with the help of your thumb and first finger (you may also use a pair of forceps) (Fig-2)

Fig-1

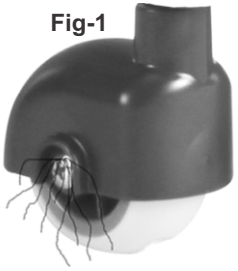

Fig-2

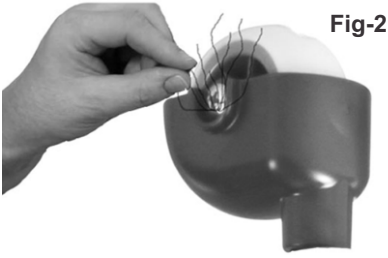
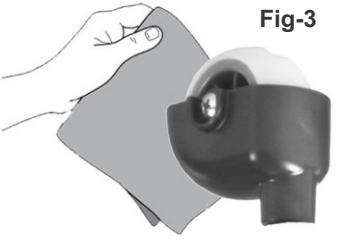


- Dirt on the floor may also stick to the wheel, which is made up of rubber material to provide firm grip,impeding the swift movement.

  Regularly wipe out dirt using soft wet cloth. (Fig-3)

Fig-3



- In the process of cleaning please do not try opening the wheel assembly. It may look like an ordinary nut bold but reassembling may not be as perfect.
  Nut has a nylon patch which cannot be reassembled.
